INDEX TO VOLUME 18[1]

Abstracts of papers, 43rd Annual Meeting
  Biochemistry, 177
  Immunology, 555
  Nutrition, 515
  Pathology, 465
  Pharmacology, 361
  Physiology, 1
Amines, pharmacologically active, enzymic oxidation of, 1005
Amino acid, balance and protein requirement, 1136
Annual Meetings
  Atlantic City (1959), 607
  Chicago (1960), lvi
Autonomic pharmacology, symposium, 1001–1012

Bacterial cell walls, chemistry, 966
Biochemical aspects of cell structure and function, symposium, 957
Biochemistry, topics of current interest, symposium, 966–1000
Biological Chemists, Society of
  abstracts, 1959 meeting, 177
  committees and representatives, 782
  constitution and bylaws, 783
  editorial boards, 782
  members, 941
  officers, 782
  program, 1959 meeting, 655
  symposium on biochemical aspects of cell structure and function, 957–965
  symposium on topics of current interest in biochemistry, 966–1000
Biological rhythms, symposium, 1232–1240
Biological significance of the fine structure of macromolecules (Joint Session), 739–758
Biologists, experimental—distribution in the U.S., 759
Boyce, W. H. Effects of high calcium intakes on urine—human beings, 1102
Brody, T. M., 1017

Calcium
  absorption, factors influencing, 1119
  high intake, effects of, 1085
  high intake, effects on absorption of other nutrients, 1119
  high intake, effects on bones, blood and soft tissues, 1112
  high intake, effects on renal function, 1093
  high intake, effects on urine, animals, 1096; man, 1102
Campbell, P. A. Progress toward space flight, 1255
Cell walls, bacterial, chemistry of, 966
Cells
  biochemical aspects of structure and function, 957
  liver, action of carbon tetrachloride on, 1013
  membrane as the site of damage by heavy metals, 1036
  structure and function, biochemical aspects of, symposium, 957–965
Chang, Min-Chueh, 1051
Clamann, H. G. Some metabolic problems of space flight, 1249
Clarkson, T. W., 1036

Davis, G. K. Effects of high calcium intakes on the absorption of other nutrients, 1119
Deoxyribonucleic acid, genetic activity of, 957
Drill, V. Biological effects of some steroids with progestational activity, 1040

Edsall, J. T. Opening remarks (Joint Session of the Federation), 739
Enzymic oxidation of pharmacologically active amines, 1005
Exhibits, 43rd Annual Meeting
  industrial scientific, 724
  member and institutional, 735

Federation
  Board, 1959–1960, 771
  Board, proceedings (1958–1959), 764
  committees, 1959–1960, 771
  constitution and bylaws, 775
  deceased members, 912
  financial statement, 770
  former executive committees and boards, 771–774
  intersociety sessions, 43rd Annual Meeting, 610
  Joint Session, 43rd Annual Meeting, 609
  meetings, Atlantic City (1959), 607; Chicago (1960), lvi
  membership, alphabetical, 800; geographical, 913; by Society, 936
  Placement Service, 777
Fenn, W. O. Life in space, symposium, 1241
Fertility-controlling steroids, symposium, 1039–1074

Ganglion-stimulating agents, non-nicotinic, 1001
Garcia, C. R., 1051
Genetic activity of deoxyribonucleic acid in reconstitution of biosynthetic pathways, 957
Green, D. E. and R. L. Lester. Role of Lipides in the Mitochondrial Electron Transport System, 987
Greenblatt, R. B., 1055
György, P. Protein requirement and its assessment in man, symposium, 1125

Habel, Ruth C. and Eleanor M. Olson. Distribution of experimental biologists in the U.S., 759
Hagen, P. B. Enzymic oxidation of pharmacologically active amines, 1005
Harper, A. E. and U. S. Kumta. Amino acid balance and protein requirement, 1136

[1] S refers to pages in Supplement 3, Advances in Human Nutrition (July 1959).

HARRIS, R. S., 1100
HARRISON, H. E. Factors influencing calcium absorption, 1085
HEGSTED, D. M., 1123
HEGSTED, D. M. Protein requirement in man, 1130
Heinz international symposium on nutrition, proceedings, S1-148
HELLER, C. G. Effect of progestins upon human spermatogenesis, 1057
HENNEMAN, P. H. Effects of high calcium intakes on renal function, 1093
Hexoses, interconversion of, 984
HOAGLAND, H. Fertility-controlling steroids, symposium, 1039
HODGE, H. C. Toxicology, symposium, 1013

Immunologists, Association of
abstracts, 1959 meeting, 555
committees and representatives, 797
constitution and bylaws, 797
editorial board, 797
members, 953
officers, 797
program, 1959 meeting, 714
Intersociety Sessions, 43rd Annual Meeting, 610

JAGENDORF, A. Photosynthetic phosphorylation, 974
Joint Session, 43rd Annual Meeting, 609, 739–758
JUDAH, J. D. AND K. R. REES. Mechanism of action of carbon tetrachloride on liver cells, 1013

KENDREW, J. C. Structure and function in myoglobin and other proteins, 740
KING, J. STANTON, JR., 1102
KUMTA, U. S., 1136
KUPPERMAN, H. S., 1071

LAIDLAW, W. M., 1057
LESTER, R. L., 987
LEVENSON, S. M. AND D. M. WATKIN. Protein requirements in injury and certain acute and chronic diseases, 1155

Macromolecules, biological significance of fine structure, 739–758
McGINTY, D. A., 1048
Metabolic problems of space flight, 1249
MICKELSEN, O. Effects of high calcium intakes, symposium, 708, 1075
Molecular complementarity and antidotes for alkylphosphate poisoning, 752
MOORE, D. J., 1057
Myoglobin and other proteins, structure and function, 740

NELSON, W. O., 1057
Nitrogen content of the body and its relation to retention and loss of nitrogen, 1125
Nucleic acids, properties of polynucleotides and, 987
Nutrition
advances in, Heinz international symposium, S1-148
basic research, S75
education, S115
health problems in middle age, S35
protein, and enzyme changes in man, 1143
protein requirement and its assessment in man, 1125–1231
the growing process, S1
Nutrition, Institute of
abstracts, 1959 meeting, 515
committees and representatives, 793
constitution and bylaws, 794
editorial board, 793
members, 951
officers, 793
program, 1959 meeting, 706
symposium on effects of high calcium intakes, 1075–1124
symposium on protein requirement and its assessment in man, 1125–1231

OHLSON, MARGARET A. AND GENEVIEVE STEARNS. Calcium intake of children and adults, 1076
OLSON, ELEANOR M., 759
Organic phosphate poisoning, 1020

Pathology, Society for Experimental
abstracts, 1959 meeting, 465
committees and representatives, 791
constitution and bylaws, 791
members, 949
officers, 791
program, 1959 meeting, 700
PAULSEN, C. A., 1057
Pharmacology and Experimental Therapeutics, Society for,
abstracts, 1959 meeting, 361
committees and representatives, 787
constitution and bylaws, 788
editorial boards, 787
members, 947
officers, 787
program, 1959 meeting, 683
symposium on autonomic pharmacology, 1001–1012
symposium on fertility-controlling steroids, 1039–1074
symposium on toxicology, 1013–1038
Phosphate poisoning, organic, 1020
Phosphorylation, photosynthetic, 974
Physiological Society
abstracts, 1959 meeting, 1
committees and representatives, 778
constitution and bylaws, 779
editorial boards, 778
members, 936
officers, 778
program, 1959 meeting, 628
symposium on biological rhythms, 1232–1240
symposium on life in space, 1241–1256
PINCUS, G., J. ROCK, MIN-CHUEH CHANG AND C. R. GARCIA. Effects of certain 19-nor steroids on reproductive processes and fertility, 1051
Polynucleotides and nucleic acids, properties of, 987
Progestins
effect on reproductive physiology of normal men, 1057

in gynecology and obstetrics, 1066
steroids with progestational activity, 1040
Protein
calories and life expectancy, 1190
malnutrition and infection, 1207
myoglobin and others, structure and function, 740
nutrition and enzyme changes in man, 1143
requirement and amino acid balance, 1136
requirement in injury and certain acute and chronic diseases, 1155
reserve and nitrogen content of the body, 1125
structure and function, myoglobin and other, 740
Protein requirement and its assessment in man, symposium, 1125–1231

Radiation hazards in space flight, 1242
RAKOFF, A. E. Progestational compounds in gynecology and obstetrics, 1066
REES, K. R., 1013
Renal function, effects of high calcium intakes on, 1093
ROCK, J., 1051
ROSEMAN, S. Interconversion of hexoses, 984
ROSS, M. H. Protein, calories and life expectancy, 1190
ROTHSTEIN, A. Cell membrane as site of damage by heavy metals, 1026

SCRIMSHAW, N. S. Protein malnutrition and infection, 1207
Space flight
metabolic problems, 1249
progress toward, 1255
radiation hazards, 1242
Space, life in, symposium, 1241–1256
SPIZIZEN, J. Genetic activity of deoxyribonucleic acid in the reconstitution of biosynthetic pathways, 957
STEARNS, GENEVIEVE, 1076
Steroids, fertility-controlling, symposium, 1039–1074
Symposia and special sessions, 1959 meeting
autonomic pharmacology, 683, 1001–1012
biochemical aspects of cell structure and function, 655, 957–965
biological rhythms, 643, 1232–1240
effects of high calcium intakes, 708, 1075–1124
fertility-controlling steroids, 687, 1039–1074
life in space, 649, 1241–1256
protein requirement and its assessment in man, 710, 1125–1231
topics of current interest in biochemistry, 674, 966–1000
toxicology, 686, 1013–1038

TOBIAS, C. A. Radiation and life in space, 1242
Toxicology alkylphosphate, molecular complementarity and antidotes for, 752
Toxicology, symposium, 1013
TRENDELENBURG, U. G. Non-nicotinic ganglion-stimulating agents, 1001

VERMEULEN, C. W. Effects of high calcium intakes on urine—animals, 1096

WALLACE, W. M. Nitrogen content of body and its relation to retention and loss of nitrogen, 1125
WATERLOW, J. C. Protein nutrition and enzyme changes in man, 1143
WATKIN, D. M., 1155
WHEDON, G. D. Effects of high calcium intakes on bones, blood and soft tissues, 1112
WILLS, H. Organic phosphate poisoning, 1020
WILSON, I. B. Molecular complementarity and antidotes for alkylphosphate poisoning, 752

ZILLIKEN, F. Chemistry of bacterial cell walls, 966
